

PM Document Review 2019-02-17

This document exists as a record of the pre-submission review of the planning documents for Stage III, using the points in the review plan.

Reviewer – Conor Finn

Project Management Plan

- Meets the standard of the templates, clear subheadings to find information quickly.
- Explanation of iteration planning added to document as requested in feedback.
- Ready for submission.

Quality Assurance Plan

- QA plan now outlines documentation and coding standards for the project.
- Contains links to relevant information or other files to get new members up to speed more quickly.
- Document follows plan styling template.
- Ready for submission.

Review Plan

- Document has been updated to include processes used in review of both documentation and software.
- Document has been re-formatted to follow the style of the other documents.
- Ready for submission.

Version Control

- Detail on the processes used for the VCS.
- Describes the branching process more effectively.
- Already followed style.
- No mention of merge conflicts.
 - Simple fix, merge conflict protocol appended to the GitLab section of the document. No need to use Issue system.
- Ready for submission.

Testing Plan

- Specified type of unit testing (JUnit).
- Follows style of other documents.
- Ready for submission.
